

# Group 42 // Withing-Tunnel Markets

In Withington, residents are either students or full-time employed. Our goal is to break the cycle of residents leaving Manchester after graduating by providing spaces for entrepreneurship and assistance programmes. By this, Crescent Bazaar will host member's start-ups, who then progress to Barbican Market (the programme's more-established market space) then advance to Copson St and the wider town centre. Our intervention manifests itself by pedestrianising the centre, landscaping the Bazaar and Market and creating uniformity to Copson Street's frontage. Reclamation of car parks, pedestrianising the centre and decreasing the residents' commute creates an environmentally and socially sustainable model for Withington.

OF WITHINGTON RESIDENTS ARE STUDENTS! THIS INITIATIVE AIMS TO RETAIN THEM POST-GRADUATION.
